

## Terms of Use

The App „Dictate+“ is provided by JOTOMI GmbH.

Using the “Feature Unlock” subscription in Dictate+ is subject to the following terms of use.

### 1. Functionality

When you purchase a “Feature Unlock” subscription, the length limit of 30 seconds for each individual dictation is raised to up to 24 hours, depending on the configured recording quality and the available space on your device.

#### 1.1. Maximum recording length per dictation

Quality	Sampling rate	Maximum length per dictation
Normal	11025 Hz	24 hours
Higher	22050 Hz	12 hours
Highest	44100 Hz	6 hours
Studio	48000 Hz	5,5 hours

Please note that the maximum length may not be reached if there's not enough free space available on your device (2 GB per maximum length dictation, irrespective of quality).

#### 1.2. Functionality after termination

After the subscription ends, either because you cancel it or because the automatic renewal is disabled by either Apple or

us, you can still access your previously recorded dictations, even if they're longer than 30 seconds. You can play and share them without any restrictions. Only the recording and editing features are limited to the first 30 seconds.

## **2. Period and Renewal**

### **2.1. Existing customers**

Customers who purchased the app Dictate + Connect will receive a feature unlock, free of charge, for a period of four months after the original purchase date of Dictate + Connect. For example, if you purchased Dictate + Connect on January 1st, 2021, you will receive a free feature unlock until April 30th, 2021. In order to activate your free feature unlock, you need to have installed Dictate + Connect on the same device and run it at least once.

### **2.2. Renewal**

Your iTunes account will be charged immediately after confirming the subscription. The subscription will auto-renew, unless renewal is deactivated at least 24 h prior to the end of the current period. Your account will be charged within 24 h before the end of the current period with the renewal. You can manage your subscriptions in your iTunes account settings and disable automatic renewals. When you purchase a subscription, any eligible free use period (4 months after your Dictate + Connect purchase date, see above) is forfeit and your account will be charged immediately.
